Industry Insights

The demand for skilled Full Stack Developers is skyrocketing across various sectors such as healthcare, retail, finance, and entertainment. According to the U.S. Bureau of Labor Statistics, software development jobs are projected to grow by 22% from 2019 to 2029, much faster than the average growth rate for all occupations.

Interneex is committed to provide practical training and deploying the finest developers by offering top-notch tech education designed to meet industry demands.

Message from the CEO

Welcome to Interneex!

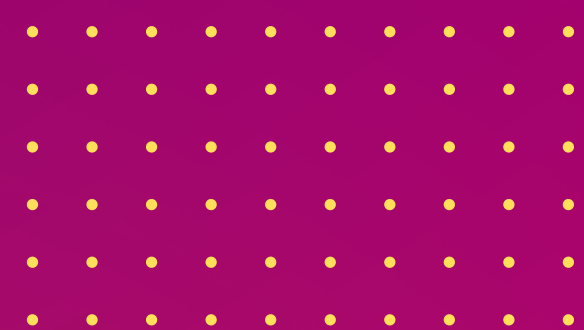

At Interneex, we're revolutionizing tech education by bridging the gap between learning and real-world application. Here, you'll collaborate on live projects with our expert tech team, gaining invaluable hands-on experience.

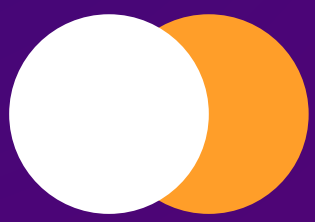

Our personalized mentorship from industry leaders ensures you get the guidance you need to excel. Plus, our comprehensive placement assistance opens doors to top-tier career opportunities, preparing you for success.

Interneex isn't just a training platform; it's your launchpad for a thriving tech career. Thank you for joining us on this exciting journey.

Warm regards,

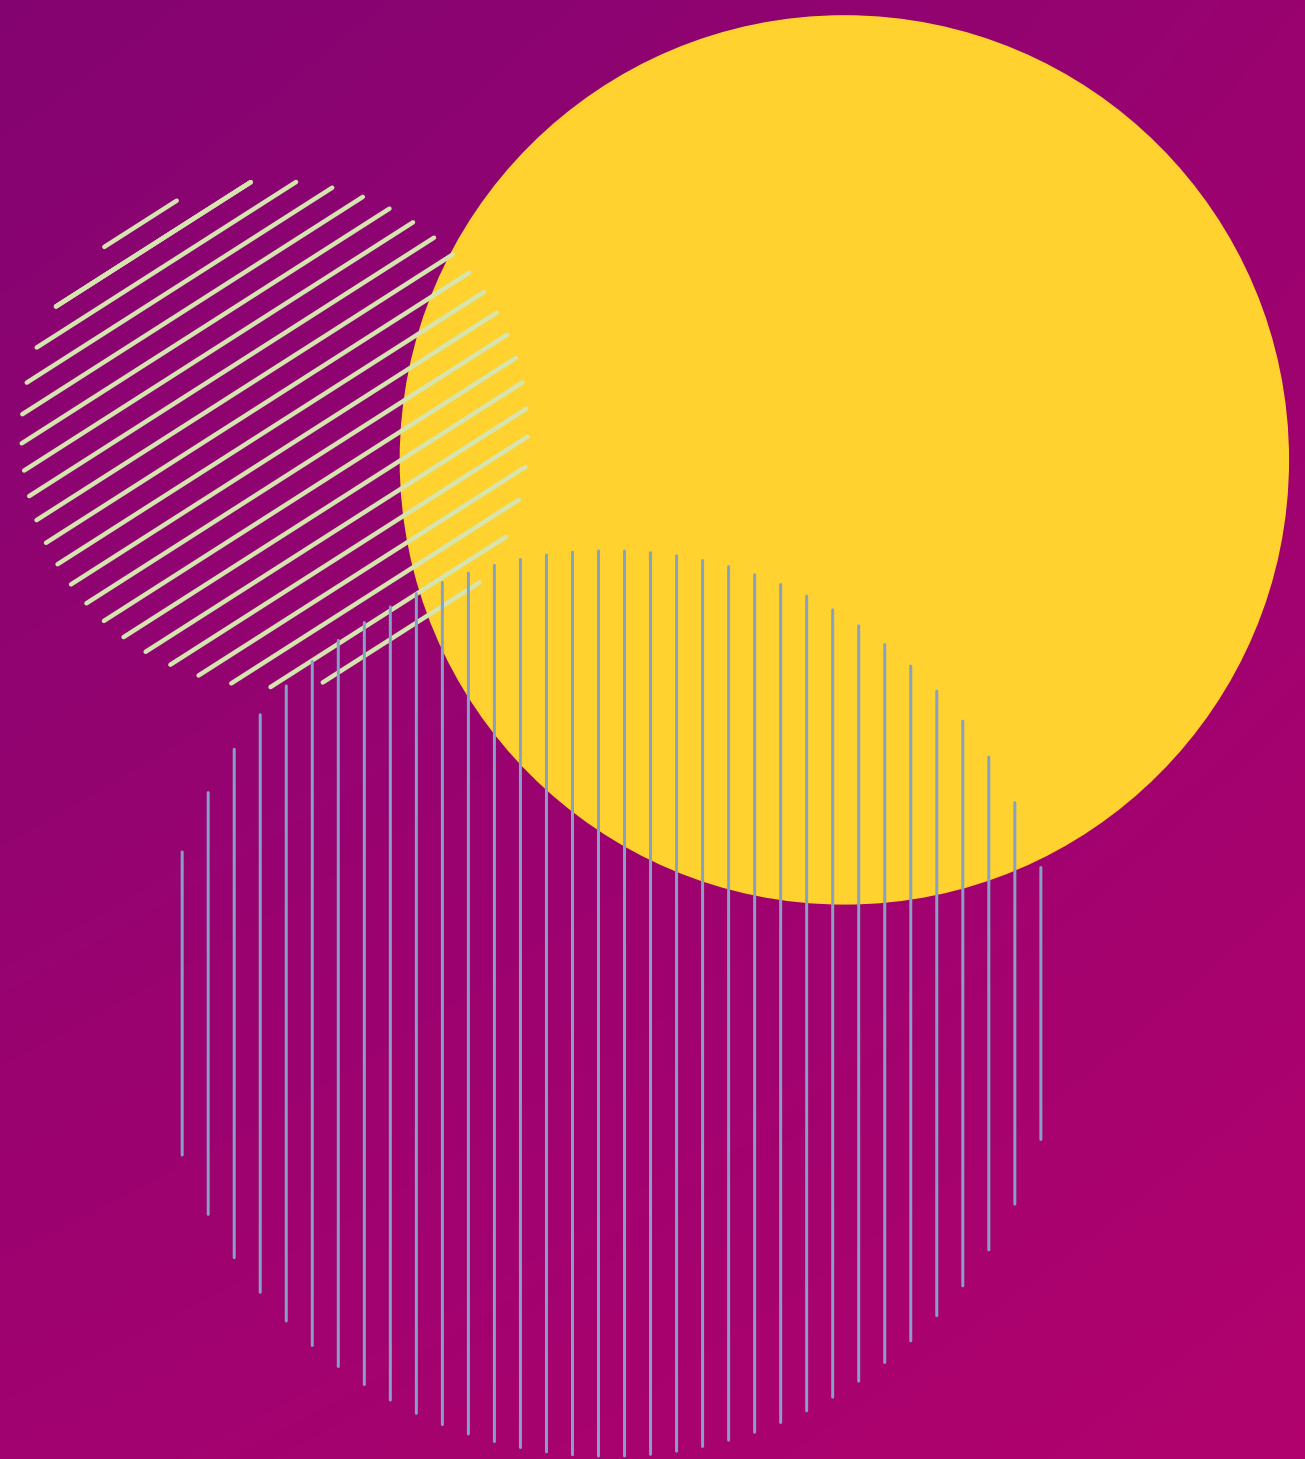

**Satyam kr
CEO, Interneex**

About Interneex

Welcome to Interneex,
your gateway to a
successful tech career! At
Interneex, we offer a
unique blend of
comprehensive training
and real-world experience
to help you master full-
stack development. Our
programs are designed to
provide hands-on
experience by allowing
you to work on live
industry-level projects
with practical concepts.

HOW WE ARE DIFFERENT

- **Live Project Collaboration:** Unlike other upskilling companies, we provide opportunities to work on real-world projects with our expert tech team. This hands-on experience ensures you're industry-ready.
- **Personalized Mentorship:** Our one-on-one mentorship from industry professionals (**Microsoft, Amazon, Qualcomm, etc.**) sets us apart. We offer tailored guidance to help you navigate challenges and excel in your career.
- **Placement Assistance:** We go beyond training with comprehensive placement support, connecting you to top-tier internships and job opportunities through our extensive network.
- **Recognized Certification:** Our internship experience certificate is highly valued in the corporate world, giving you a competitive edge in the job market.

Program Details

Duration: 6 months to 12months depends upon the course (Training & non paid Internship)

Course Overview

This full stack development course is designed to provide candidates with comprehensive knowledge and hands-on experience in building web applications. The course is divided into several modules, each focusing on different aspects of full stack development.

Module 1: Introduction to Full Stack Development

- Overview and roadmap of web development
- Roles and responsibilities of a full stack developer
- Tools and technologies used in full stack development
 - Understanding client-server architecture
- Front-End Vs Back-End development
- HTTP and HTTPS protocol basics
- Restful APIs and Web services

Module 2: Front-End Development

- HTML and CSS
- JavaScript fundamentals
- Front-End Frameworks
- Creating a responsive design
- Project: Build a responsive landing page

Module 3: Back-End Development

- Setting up the development environment
 - Server side programming
- Databases
 - Relational: PostgreSQL, MySQL, SQLite
 - Non-relational databases: MongoDB, Redis, Cassandra
- Which database to choose and why?
 - Application requirements
 - Scalability needs
 - Performance considerations
 - Data integrity
- Node.js and Express.js
 - Introduction to Node.js
 - Node package manager (npm)

Basics of Express.js

- Routing
- Middleware
- Using Sequelize with Node.js
- Building RESTful APIs
- Performing CRUD operations
- ORM (Object-Relational Mapping)

Query optimisation

- Load balancing
- Project: Build a full stack application with a MongoDB/PostgreSQL database using ORM

Module 4: Full Stack Application Development

- User Authentication and Authorization
 - User authentication
 - JWT (JSON Web Tokens)/OAuth
 - User authorization and roles
 - Securing APIs
 - Project: Add authentication and authorization to your full stack application
- Web Security
 - Common security threats (XSS, CSRF, SQL Injection, etc.)
 - Best practices for securing web applications
 - Implementing HTTPS
 - Data validation and sanitization

Module 5: DevOps and Deployment

- Version Control
 - Understanding Git, GitHub and Bitbucket
 - Collaborative workflows
- Deployment
 - Hosting and deploying applications to cloud services (e.g., Heroku, AWS, Netlify)
 - CI/CD pipelines
 - Docker basics and containerization
 - Project: Deploy your full stack application to a cloud service

Module 6: Testing and QA

- Unit tests
- Integration tests
- End-to-end tests

Module 7: Advanced Topics (Optional)

- Microservices architecture Capstone Project
- Work directly on Modgenics Live projects

Note : The course content varies as per package purchased by the student.

Project Portfolio

Work on industry-level projects to gain practical experience and build a strong portfolio.

The screenshot shows the DueDash website's 'Our startup plans' page. The navigation bar includes 'Startups', 'Investors', 'Resources', 'Media', 'Register', and 'Login'. A 'Platform' link is highlighted. The main heading is 'Our startup plans', followed by a description: 'One platform for investor CRM & reporting, KPI tracking, data room sharing, due diligence and investor sourcing. Start managing your investor data for free and upgrade when you start reporting.' Below this, there are two billing options: 'Billed monthly' (selected) and 'Billed yearly' with a '50% discount' tag. Three pricing plans are displayed: 'Starter' at \$0/month with a 'Get started' button; 'Regular' at \$30/month with a 'Start your free trial' button and 'No credit card required - 7-day free trial'; and 'Power' at \$50/month with a 'Start your free trial' button and 'No credit card required - 7-day free trial'. A 'Includes' section is partially visible at the bottom.

The screenshot shows the DataVault website. The navigation bar includes 'Home', 'How it works', 'Resources', 'Pricing', 'Contact', 'Login', and 'Register'. The main heading is 'Share documents, get analytics, close deals!'. Below this is a sub-heading: 'DataVault offers better control over sales efforts with document security to help your business thrive. It's time to reimagine your business engagement.' Two buttons are present: 'START NOW FOR FREE' and 'LEARN MORE WITH A LIVE DEMO'. A large image shows a screenshot of the DataVault interface, displaying a 'Techcube Data Room' with various documents and a 'Structure files into your sections' feature. At the bottom, there are logos for 'DueDash', 'SendGrid', 'seitz', 'aws activate', and 'QUAKE'. A 'HOW WE HELP' link is visible at the bottom center, and a small 'X' icon is in the bottom right corner.
